EIC Accelerator: Annotated Short Pitch Deck Guide 2023

This guide is created with the aim to help applicants to prepare a proposal under the first step of the EIC Accelerator.

EIC transition to innovation proposer interview

The EIC Transition was launched in 2021 as one of the major novelties under the European Innovation Council acting as a bridge instrument between the EIC Pathfinder and Accelerator.

TB Map tool: quick competitors mapping tool

The TB.Map has been built to help you in mapping main potential competitors: products or solutions in the market, similar technologies approaching your same need, relevant IP assets found in IP databases and running or finalised R&D projects.

Business opportunity size tool

The B.size tool is developed with the objective to help companies and/or researchers, with a guided process, to calculate roughly the order of magnitude of their business opportunities as well as a first estimate of their potential revenues in three different markets.

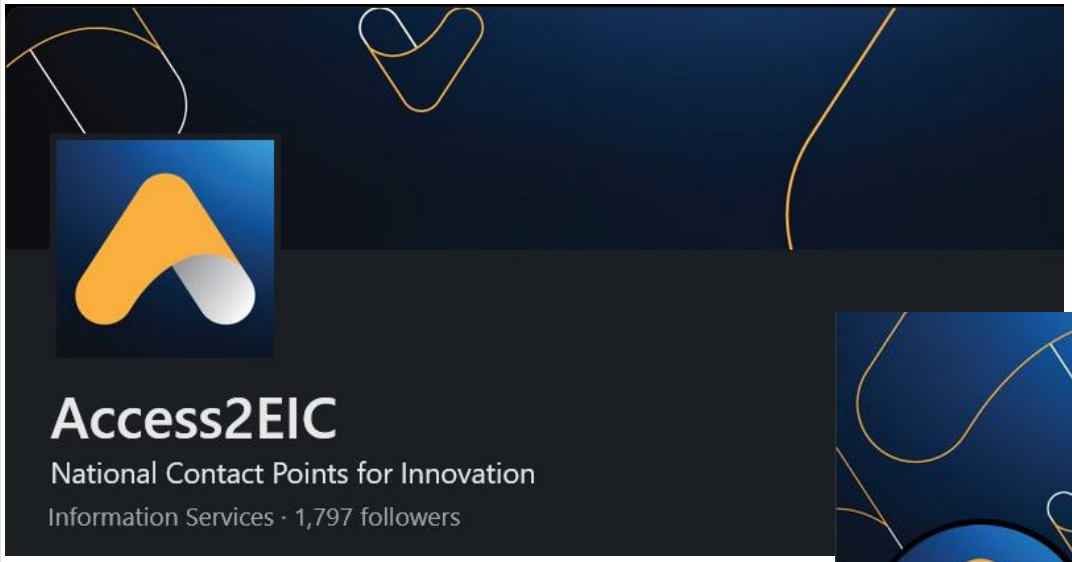

Business Glossary

This tool presents a quick guide to the main business terms used within Horizon Europe programme.
