

Widening Info-day

9. November 2021.

Dr. Harris Alexopoulos, University of the Aegean

This project has received funding from the European Union's Horizon 2020 research and innovation programme under Grant Agreement Number 857592 - TODO

Project objectives

01

To establish an open data research environment

that will facilitate and stimulate interdisciplinary multi-domain open data research within and beyond UNIZG, TUDELFT and UAEGEAN

02

To enhance the overall scientific R&I capacity

of UNIZG significantly in the field of open data

03

To increase the research excellence of UNIZG

by collaboratively developing and applying an interdisciplinary and multi-domain open data research approach

04

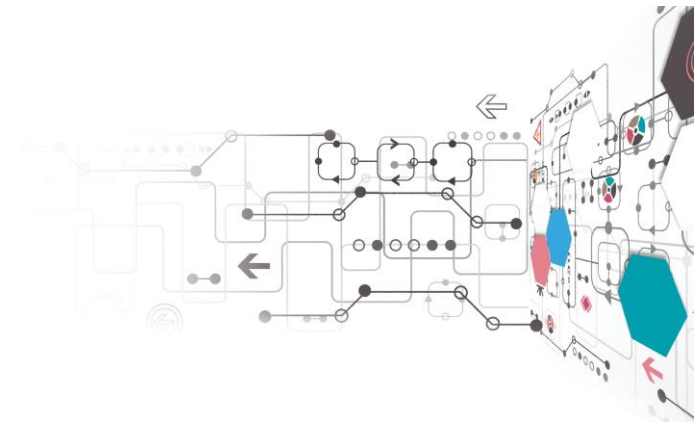

To extend UNIZG strategic partnerships

and strengthen its visibility and reputation among the national and international research community, industry, policy-makers and the general public

05

To secure a sustainable environment

for future collaborations between UNIZG, TUDELFT and UAEGEAN

Approach and Methodology

	WP2 Capacity Building	WP3 ESRs Training and Research	WP4 Collaboration and Knowledge Sharing	WP5 Dissemination and Outreach	WP6 Sustainability
Interdisciplinarity open data research approach actions	Summer School Site visit I	Staff exchange I (researchers and mentors)	Seminar I	Workshop	Joint interdisciplinary and multidomain research agenda
Multidomain open data research approach actions	Site visit II	Staff exchange II and III (ESRs and mentors)	Seminar II	National Open Data Conference	
Supportive and enabling actions	Online training	ESRs training Co-supervision	Open Data Labs and Consortium Open Science Collaboration Platform Joint publications	International Open Data Conference MOOC on best practices	Consortium agreement Project proposals Open data education

Excellence – Added Value

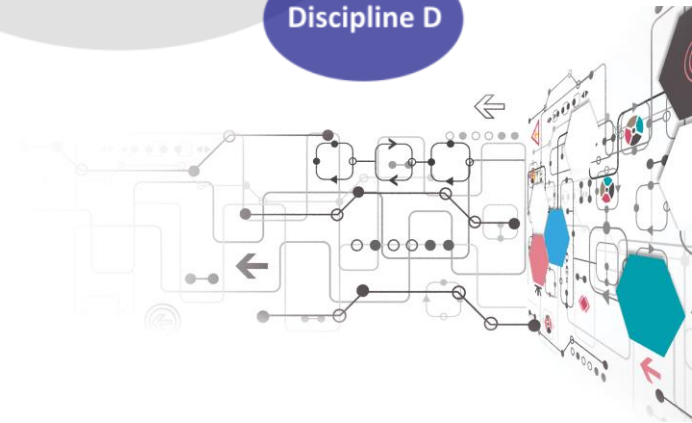

Before TODO

After TODO

1

Interdisciplinary capacity building

Organization of major events

- Conferences
- Workshops

Education and Training

- MOOC
- Summer Schools

Network Development

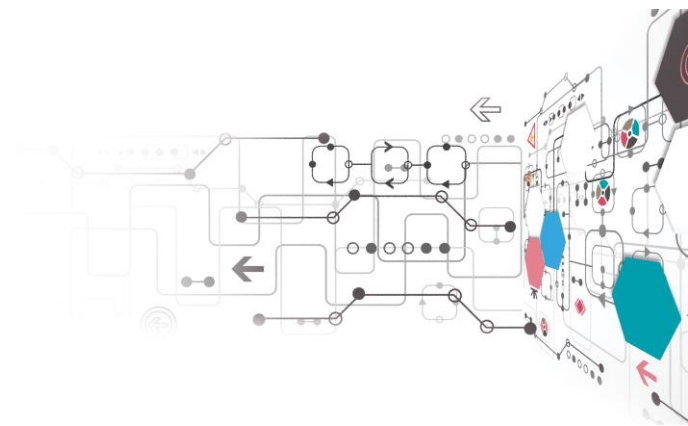

- Creating a sustainable open data research environment of the TODO partners

Research Staff

- Raising research profile of UNIZG staff
- Involving Early Stage Researchers (ESRs)

Results until now

- ✓ More than 200 participants into OTP
- ✓ 18 engaged ESRs
- ✓ More than 25 publications
- ✓ 15 events (seminars, workshops, site visits)
- ✓ 1 National conference with more than 90 participants from Croatia
- ✓ 1 Summer school establishing common understanding / glossary / research agenda
